REPORT OF SUPERINTENDENT OF SCHOOLS

Members of the Marlow School Board:

I, herewith, submit my fourth report as superintendent of your schools.

A comparative study of the attendance records in Marlow during the past five years follows. It enables the people of the town to see accurately the gradual improvement that has taken place at no added expense to the tax payers. The increase in percent of attendance from 86 in 1923 to 92.35 in 1927 is commendable. It is our goal to raise this to 95%.

Attendance record for the schools of Marlow:

	1923-1924	1924-1925	1925-1926	1926-1927	1927-1928
Actual $\frac{1}{2}$ days schools					
were in session,	344	352	346	360	363
Days lost,	16	8	14	0	0
% attendance,	86	89	88.5	92.78	92.35
Tardiness,	142	184	142	205	151

Your schools are being tested regularly by the national tests. These are identical with those used in practically all standard schools of the country. By them it is possible to compare accurately your schools with those of the nation at large. In fact, double testing is taking place—the first group being a rating according to general ability and the second group as to actual achievement. This is the surest method yet evolved of finding weaknesses in an educational system and correcting them.

Countries, cities and towns are today spending vast sums of money to advertise themselves and the opportunities they each offer to prospective residents and visitors. There is no better advertising than an attractive school building—espec-

ially when it is centrally located as is yours. At a small expense the outside of the school could be made attractive and artistic, as is now the inside. The closing of the end doors and a simple entrance over the central doors would add appreciably to the attractiveness of the whole village and cause travellers to remember Marlow as one of the progressive towns of the state. Your school has been made healthful and pleasant inside. Nothing remains but to advertise this fact in outside improvements.

Once more it is my privilege to thank the school board and the citizens of Marlow for their continued interest in the schools and their advancement.

Respectfully submitted,

ROY W. GILLMORE,
Superintendent of Schools.

During the whooping cough epidemic eighteen to twenty pupils were affected. Several cases of measles and mumps at this time.

I want to emphasize to the parents the importance of this school nursing. Where a few may understand this, others do not.

As a whole the children enjoy and are interested in this work, to make this more so and to have better and healthier children the parents are asked to give all the co-operation they can in correcting the defects found after the examinations are made.

I am working for the interest of your child or children and I need your co-operation.

I have enjoyed meeting the people of Marlow. Having been a new school nurse last year.

A. B. MacDONALD,
School Nurse.

REPORT OF SCHOOL BOARD

The report of Marlow School Board for the year ending June 30, 1928 is before you. Bear in mind this report closes on the above date, the end of the school year. We are pleased to report that some of the repairs so much needed have been installed. We mention chemical toilets as one of the most important and of great convenience to all, and very satisfactory to the board.

The old and worn out curtains have been replaced by new and a much improved shade recommended by the State department, although at quite an outlay, have been of great convenience, and comfort to teachers and pupils as well.

The changes made in the hall and closing of two doors was also a benefit.

The inspection of the children by the local physician has been taken over by the district nurse. Taking care of the throat and teeth and taking some of the children to a dentist has been a benefit to those who needed it most.

Some painting and repairing walls has been done but there is still a little apportionment yet unexpended.

The janitor service has been in the same competent hands as last year and has been very satisfactory.

There are yet some repairs to be made and will be attended to during the summer vacation.

We were fortunate in retaining the services of the same experienced teachers, Mrs. Maude F. Wheeler in the grammar room and Miss Lillian M. Field in the primary room. They both did good work and finished the year to the satisfaction of the board and parents as well.

We would be glad to have the parents visit the schools more often and keep in touch with the progress made by the

pupils and so doing give encouragement to the teachers as well as showing them interest in their children.

Much credit is due our Superintendent, Roy Gillmore for the interest and saving he has made us during the year.

LEON H. DAVIS,
IVAN F. HUNTLEY,
GEORGE F. GEE,

School Board.
